GENESIS DS

MULTI-PULL PRESS

MODEL # **GD505**

CABLE STRENGTH GENESIS DS

Facility owners will love the space-saving design. Trainers will love the versatility. And users will love its intuitive function. Constructed with heavy duty steel with an electrostatic powder coating makes this machine durable to live up to its popularity on the strength floor. The GENESIS DS Multi-Pull Press gives trainers and users the freedom to add challenges to their workout without sacrificing function.

GENESIS DS MULTI-PULL PRESS

PRODUCT FEATURES

HIGH/LOW PULLEY EXERCISE OPTIONS

The versatility in exercise options are only limited by imagination. High and low pulley options allow users to train virtually any muscle group.

ISOLATION TO INTEGRATION

The machine features a seat and adjustable thigh pads to isolate the lower body. Users can simply fold the seat away to work out unsupported and integrate more muscle groups.

FREEDOM TO MOVE

The swivel pulley design combined with the extensive cable travel allows users a wide, fluid range of motion.

PADDED SEAT AND THIGH PADS

Rolled thigh pads swivel to comfortably isolate the legs. Seat bottom is also padded for fit and comfort. - Does this replace PIVOTING SEAT PAD? -- Please replace Pivoting Seat Pad with this copy.

EXTENSIVE CABLE TRAVEL

Cable length allows for full flexion and extension. Single arm: 76 in / 193 cm, two arms: 38 in / 96.5 cm.

ENCLOSED WEIGHT STACKS

The weight stacks are enclosed to limit access to moving parts for safety.

BUILT TO LAST

Constructed with 11- and 7-gauge steel and electrostatically powder-coated, this machine is built to stand up to the rigors of the weight room.

SPECIFICATIONS

Resistance	1 arm: 90 lb / 40.8 kg 2 arms: 180 lb / 81.6 kg
